

## HydroTap Cube Boiling/Chilled (BC) Tap

Elevate your home hydration with the HydroTap Cube BC Tap and enjoy instant access to filtered boiling and chilled water from the tap.

The HydroTap Cube offers a contemporary twist on a classic with its angular square shape which is softened by its rounded corners.

This tap style can be installed over the sink as a secondary tap or over our optional design range font/drip tray. The HydroTap Cube tap is available in seven different finishes from a classic chrome to a modern gunmetal.

## HydroTap Cube BC Tap

Product Spec Sheet

## Installation Requirements

The HydroTap is a pump-driven system so the installation of the Tap must be within 3' ( 0.9 m ) of the base command center. Installation on most countertops is straightforward however, some stone countertops may require a specialized cutting service.

If using a drip tray (font) accessory, suitable drainage to a trapped waste is required within $3^{\prime}$ ( 0.9 m ) of the installation. Sufficient space and clearance to install the HydroTap as detailed in the product installation guidelines is required.

Installation and connection of your HydroTap must be carried out by a qualified person, observing all local, state, \& federal regulations

# HydroTap 120V BC G5 Command Center <br> Product Order Code: 01043465 <br> The HydroTap by Zip Water is more than just a water system, it's cooking made easy and it's water at its best. That's because the HydroTap 120 V BC command center provides users instant access to filtered boiling and chilled water 

This command center is ideal for residential and small commercial applications and can be paired with any of our various tap styles

## HydroTap 120V BC G5 Command Center - Product Specs

| Product Order Code | 01043465 |
| :---: | :---: |
| Water Pressure: | Min $37 \mathrm{psi}-\mathrm{Max} 100 \mathrm{psi}\left(2.60-7.03 \mathrm{~kg} / \mathrm{cm}^{2}\right)$ with a minimum flow rate of 1 gpm ( 3.79 lpm ) |
| Water Connection: | $1 / 2 \prime$ BSP - isolation valve is required within $3^{\prime}$ ( 0.9 m ) of the installation |
| Integral Water Values: | All HydroTap systems are fitted with a Dual Check Valve and a 50 psi ( $3.52 \mathrm{~kg} / \mathrm{cm}^{2}$ ) Pressure Limiting Valve |
| Water Supply Requirements: | Potable drinking water supply |
| Optimal Total Dissolved Solids (TDS) Range: | TDS Min 50ppm - Max 150ppm |
| Integral Water Filter: | 0.2 micron, 1 size - replace every 1,100 gallons / 4,163 liters or 12 months |
| Power Rating: | 110-120V, $50-60 \mathrm{~Hz}, 15 \mathrm{amp}$ power supply with a NEMA 5-15 outlet |
| Dimensions (WxDxH): | $13.3^{\prime \prime} \times 18.2^{\prime \prime} \times 13.1^{\prime \prime} / 339 \mathrm{~mm} \times 462 \mathrm{~mm} \times 333 \mathrm{~mm}$ |
| Minimum Air Gap: | Minimum of 2" / 50 mm clearance on left and right side and 8" / 200mm above |
| Minimum Cabinet Size: | $18^{\prime \prime}$ wide $\times 24^{\prime \prime}$ deep / 457mm wide $\times 610 \mathrm{~mm}$ deep |
| Maximum Hose Connection Length | 3' / 0.9m (tap to command center) |
| Minimum Distance Needed for Installation | 15" / 381mm (interior wall to garbage disposal) |
| Dry Weight: | $66 \mathrm{lbs} / 30 \mathrm{~kg}$ |
| Product Approvals: | IAPMO - NSF/ANSI 372, 42, 53, CSA B483.1, ASSE 1023, ASSE 1087; cUL; CEC |
| Warranty: | 3 years |

## Installation Requirements

Installation and connection of your HydroTap must be carried out by a qualified person, observing all local, state, \& federal regulations You will require suitable $110-120 \mathrm{~V} 50-60 \mathrm{~Hz}, 15$ amp power supply with a NEMA 5 - 15 electrical outlet within 5' $9^{\prime \prime}$ ( 1.75 m ) of the product.

The HydroTap is a pump-driven system so the installation of the Tap must be within $3^{\prime}(0.9 \mathrm{~m})$ of the base command center. The HydroTap is an air-cooled system so discrete cabinetry cut-outs are required for ventilation. Installation on most countertops is straightforward however, some stone countertops may require a specialized cutting service.

If using a drip tray (font) accessory, suitable drainage to a trapped waste is required within $3^{\prime}$ ( 0.9 m ) of the installation. If you live in an area with hard water (more than 150 ppm ), we recommend installation of a scale filtration kit or a water softener. Sufficient space and clearance to install the HydroTap as detailed in the product installation guidelines is required.
