This is **not** just a faucet

The HydroTap by Zip Water is not just a faucet. With advanced filtration and instant access to filtered boiling, chilled and sparkling water, plus unfiltered hot & cold water, the HydroTap by Zip Water is:

Instant Boiling

Cooking made easy

Instant Chilled

Stylish sustainability

Instant Sparkling

Sparkling on demand

75 years of innovation

Founded in Australia in 1947, Zip Water has a rich history of innovation. After decades of advancing and perfecting our drinking water systems globally, we're thrilled to finally bring the HydroTap system to North America!

See why we are leading the way in performance and functionality:

MicroPurity™ filtration

Built-in 0.2 micron filter certified to NSF standards provides pure-tasting, filtered water for you and your family.

Air-cooled system

Our unique air-cooled refrigeration system is 100% water efficient.

PowerPulse technology

Our innovative Zip PowerPulse technology maintains stored boiling water to within 1-2° of your set temperature, meaning no energy or time is wasted waiting for water to boil.

Auto-diagnostics

An advanced auto-diagnostics system continuously monitors your HydroTap's performance.

Unique safety features

Our HydroTap systems are designed to deliver boiling water smoothly to minimize splashing. Additionally, our taps include a safety lock that must be activated before dispensing boiling water.

Smart customization

Our newly optimized menu in the G5 HydroTap command center allows you to select energy modes and usage settings for easier customization.

Fashioned for form and function

From pure-tasting, filtered boiling, chilled or sparkling water to unfiltered hot & cold water, the HydroTap by Zip Water dispenses water the way you want it. Combining eye-catching tap design with cutting-edge, under-counter technology, this revolutionary drinking water system isn't just an appliance. It's the new standard in hydration for today's trend-defining homes.

Maintenance, warranty and aftercare

It's important to perform routine maintenance on your HydroTap to keep it running at peak performance. This includes changing the filter at least once per year (or every 1,100 gallons/4,163 litres) and monitoring your CO₂ levels for our BCS and CS models.

To make it easy, Zip Water offers installation, preventative maintenance programs (including filter & CO₂ changes) and warranty repairs provided by our own certified technicians and Zip Water trained third-party partners.*

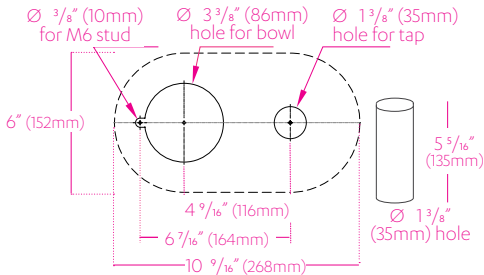

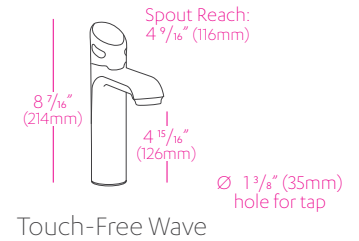

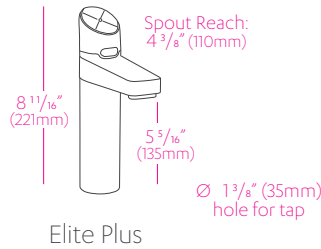

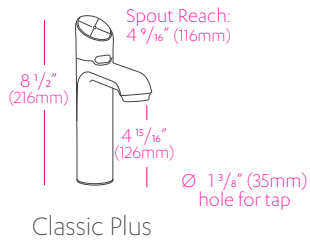

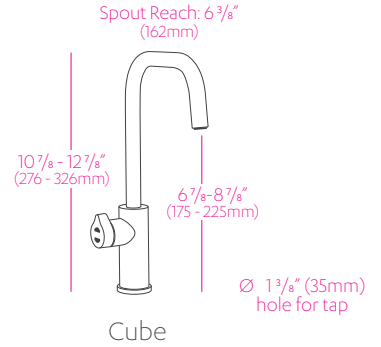

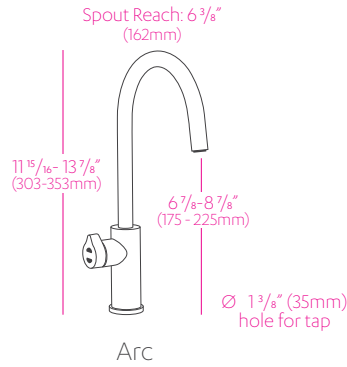

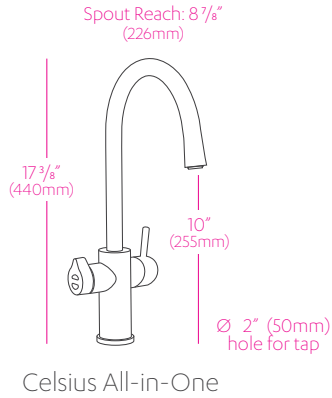

What's more, your HydroTap system is backed by a comprehensive parts and labor warranty.
