The HydroTap is more than just a faucet

The HydroTap by Zip Water is a multi-function tap that will transform the way you view, and use your water. With the ability to instantly dispense filtered boiling, chilled and sparkling water (plus unfiltered hot/cold with our all-in-one models), the HydroTap will arguably become the most used appliance in your kitchen.

Explore the benefits of a HydroTap in your home.

Culinary convenience

With filtered boiling, chilled and sparkling water on tap, you can easily blanch vegetables, start a pot with boiling water for pasta, create fluffier batters and so much more.

Entertaining made easy

Elevate your entertaining by offering your guests water in a format they will love. From sparkling cocktails to quick snacks, the HydroTap is sure to please.

Stylish sustainability

Eliminate the countertop clutter and ditch the single-use plastics and cans of sparkling when you upgrade to a stylishly-design HydroTap by Zip Water.

Water at its best

From pure-tasting, filtered boiling, chilled or sparkling water to unfiltered hot & cold water, the HydroTap by Zip Water dispenses water the way you want it.

HydroTap product selector

Whether you are looking for a kitchen sink replacement faucet or a secondary tap to be installed away from the sink, we have a HydroTap system to suit your needs.

Choose from the options below to configure your perfect HydroTap system.

Maintenance, warranty and aftercare

It's important to perform routine maintenance on your HydroTap to keep it running at peak performance. This includes changing the filter at least once per year (or every 1,100 gallons/4,163 litres) and monitoring your CO₂ levels for our HydroTap Boiling/Chilled/Sparkling (BCS) and Chilled/Sparkling (CS) models.

To make it easy, Zip Water offers installation and warranty repairs provided by our own certified technicians and Zip Water trained third-party partners. Parts and labor maintenance programs are available in certain areas.* This includes annual filter change and unlimited CO₂ replenishment.

What's more, your HydroTap system is backed by a comprehensive parts and labor warranty.

*Available in most metro areas

Installation Requirements

Power: 1 x 110 – 120V, 50-60Hz, power supply with Nema 5-15 outlet

Water:

- Water connection:
 - 1 x 1/2" BSP water connection with isolation valve for Arc Plus, Cube Plus, Elite Plus, Classic Plus, Classic and Touch-Free Wave models
 - 2 x 1/2" BSP water connection with isolation valve for Celsius Plus All-in-One and Celsius Plus All-in-One with Pull-Down Sprayer models
- Water pressure: 37 – 100 psi / 2.60 - 7.03kg/cm² / 250-270kPa
- Minimum flow rate: 1 gpm / 3.79 lpm
- Optimal Total Dissolved Solids (TDS) range: 50ppm – 150ppm

Ventilation: Cabinet floor cutout of 12.3125" (314mm) must be made in the front above the toe-kick. Additionally, the unit must have a minimum of 2" (50mm) clearance on left and right side and 8" (200mm) above for proper ventilation.
